## FOR STREET IMPROVEMENTS

City Council Will Let Third and Sixth Street Contracts Tonight.

Salary Ordinance and Appointment of Health Officer to Come Up.

The new Republican city council will hold its first regular meeting tonight and it will be greeted by a large amount of business. The ordinance drawn up by City Attorney Young, fixing the salaries of the city officials and employees will be introduced.

Bids on the contract for the improvement of the north side of Third street, west of the L. E. & W. depot, and the north side of Sixth street, will be opened and the contract let. Bids on the contract for tapping the city water mains for the ensuing year will also be opened.

Tonight is the night upon which the wrangle over the election of a health officer between council and Mayor Hall is to be settled.

It is probable that council will take some action toward postponing the special election on the school building question, as Van Amberg's circus comes to town on May 29th, the day set.

## A FOOT RULE OR TAPE LINE

Should be Included in a Fishing Outfit—Size and Number of Fish Cut a Figure.

There is much complaint coming from law abiding anglers of violations of the fish law that they claim are being committed in this county. They say there are some fishermen in this county who do not know or comprehend that part of the fish law which provides for the number and size of the fish that may be legally caught, or else they are flagrantly violating it. The fish law says that no person shall catch and retain pickerel, pike or perch that are less than twelve inches in length, no rock bass or crappie that are less than six inches in length and no black bass less than ten inches in length. The law provides that when fish shorter than the above figures are caught they must be returned to the stream from which they were taken wholly unharmed. The fish law also says that no person shall be permitted to catch more than twenty bass in any one day and that when two persons are angling from the same boat the two will be permitted to catch but thirty-six fish in one day. Of course all enthusiastic fishermen understand just how cumbersome a foot rule or a tape line is on a fishing trip and just how difficult it is to avoid yielding to the temptation to retain a nine and nine-tenth inch fish or how much nicer thirty fine bass look than do twenty fine bass, but such is the law, and there you are.

## PERSONAL POINTS

—Miss Elizabeth Riggs, of Indianapolis, is the guest of Mr. and Mrs. John H. Kiplinger.

—Mrs. Lou Cline and Mr. and Mrs. Peter Mauzy spent the day with Mr. and Mrs. Tony Cline, of Indianapolis.

—George O. Wyatt is attending the convention of the State Undertakers' Society, of which he is president. The meeting is being held at Indianapolis.

—Greensburg News: Mr. and Mrs. Milton Bairbridge have returned to their home at Rushville after a visit with relatives at Greensburg and Sandusky.

—John Thomas, of this city, and Ernest Morris, of New Salem, spent Sunday with Miss Grace Mitchell and Dicia Trobaugh, who are attending school at Terre Haute.

—John Thomas, having finished his work for this year at the Indiana Medical College, at Indianapolis, is here to spend the summer with his parents, Mr. and Mrs. J. Q. Thomas.

—Shelbyville Republican: Miss Anna Cotton, of Manila, was in the city Monday on her way to Indianapolis where she will spend several days with her sister, Mrs. F. H. Gilchrist.

## MINERS CAUGHT IN GAS EXPLOSION

Sixteen Men Were in the Mine—Fire Boss Brought Up Terribly Burned.

[Special to the Daily Republican.]

Shenandoah, Pa., May 15.—An explosion of gas occurred at the Shenandoah City colliery of the Philadelphia and Reading Coal and Iron Company today. Sixteen men were in the mine at the time of the explosion. It is not known whether any of them were killed.

Fire Boss Samuel Powell was the first person to be taken from the mine. He is so terribly burned that he will probably die. Several ambulances were soon at the mouth of the shaft waiting for the miners to be brought to the surface. The mine is surrounded by several hundred men, women and children.

## ARE HOLDING DAILY SESSIONS

Members of Court House Curb Stone Philosophical Society Meet.

The Court House Curb Stone Philosophical Society, which has not been in session for several months, has resumed its daily discussions and at almost any hour in the day, some of its members may be seen seated on the curb that encloses the court house lawn, talking of the affairs of the day or telling some funny story.

Weighty questions are disposed of. More business has been transacted, more accounts have been settled, more plans have been formed and more arguments have been settled on this curb stone perhaps than anywhere else in town.

Here the town loafer and the invalid alike bask in the sunshine and inhale the balmy atmosphere, (permeated with nicotine and superlative adjectives). Here in the evening, the workmen sit neath the glare of the street lamps, the soft moonbeams or (when the electric light plant is busted) neath the shadows of the building, squirting tobacco juice all over the sidewalk.

It is a wonderful society, this.

## SUNDAY FISHING TO BE STOPPED

Game Warden Made Many Arrests Along Sugar Creek in Hancock County.

Every Sunday morning the early traction cars out of Indianapolis carry out scores of fishermen in all directions. Some go north, others toward Martinsville, Franklin and Greenfield. Both the Shelbyville and Rushville division of the I. & C. carry large numbers of Sunday fishermen towards the banks of Sugar creek, Brandywine and Blue river.

Last Sunday, J. J. Brady, deputy game and fish warden, of Anderson, made a big catch in Hancock county. In company with Greenfield officers he drove to Sugar creek, and searching the creek for two miles north and south of the National road, he brought in several bunches of fishermen who were violating the law forbidding fishing on Sunday. In all eleven arrests were made. The visit of the game warden was due to the information given by the land owners along Sugar creek, who have grown tired of being imposed upon by men and boys who come from Indianapolis, Greenfield, New Palestine and other neighboring cities, who they claim, come in rigs, left gates open and either rode down the fences or cut the wires with instruments, many of them carried for that purpose, shooting guns and otherwise making a nuisance of themselves by loud and vulgar talk, while loafing and fishing along the creek in close proximity to farm houses.

## ROGERS FAMILY AGAIN IN COURT

Husband Files Replevin Suit at Shelbyville—Wants Household Goods.

Concerning a couple that recently figured in a divorce suit here the Shelbyville Republican says: "A replevin suit involving a former Rushville woman and her husband and the question of ownership of household goods will come up for a hearing tomorrow afternoon in Justice Keith's court. Six months ago, Mrs. Emma Rogers left her husband at Rushville and came to Shelbyville bringing with her a piano and other household furniture which her husband now asserts belong to him. After a writ of replevin had been issued ten days ago, Justice Keith took charge of the goods and will hold them until after a hearing of the case. Mrs. Rogers is now employed at the Ray House. Her husband is Francis Rogers."

## FORMER RICH MAN GOES TO POOR HOUSE

William Hedrick, a pioneer and the largest land owner in Madison county twenty years ago, has become an inmate of the county infirmary at his own request, in order, as he says, to reap some benefits of the large amount of money he paid the county as taxes.

He was the first man in Madison county who owned over 1000 acres of land. He provided well for his family, and three of his children are prosperous and have excellent homes. They offered to care for their father, but since his wife died and he is left alone he asserted he preferred to go to the county infirmary and there rest the remainder of his days, and also enjoy the benefits of the heavy taxes he paid for several years. In recent years he lived alone in an old building, and when persuaded to accept better accommodations, he insisted that he be taken where he become a charity charge of the county.

## THEY KEPT IT SECRET

Sensational Bank Defalcation Has Just Come to Light.

Cashier Duhadway of the Richmond National Had Scheme that Defied Detection.

Richmond, Ind., May 15.—The fact became public yesterday afternoon that Charles A. Duhadway, for thirty-five years an attaché of the First National bank, this city, is a defaulter in the sum of \$16,500. The amount of the defalcation was made good at the time of its discovery, last December, by relatives of Mr. Duhadway, who are members of the directory of the bank, and who did not care to prosecute. Mr. Duhadway's resignation as cashier was accepted, the reason assigned being ill health, and he left for the South ostensibly to recuperate. His whereabouts is not known. It is asserted, either by his wife and aged mother, who are here, or to his nearest friends. It was not known until yesterday that the federal authorities had the case in hand, but on good authority it is stated that the federal grand jury which recently adjourned at Indianapolis returned an indictment against Duhadway, and his address is now being looked after by secret service men.

Duhadway was one of the most popular bank men in Richmond, and the thing puzzling his friends is what he did with the money taken from the bank. His method was entirely unique. The books show absolutely perfect balances and not a single falsification in the entries could be found. The inner vault to the safe was where Duhadway took money. He had the combination and always was called on to get any money therefrom when it was needed by the bank. He never was absent from his post, hence no other attaché ever found it necessary to attempt to open the inner vault. Last December, while Duhadway was ill the officers of the bank tried to open the inner vault, but the combination they possessed failed. Suspicions were aroused that Duhadway had a secret combination of his own; safe experts were sent for and the vault was pried from its setting and the shortage was discovered.

## TOMATOES ARE IN A CORNER

Situation Finds County's Supply In Hands of Few Packers.

Jobbers in canned goods say that there is a syndicate in practical control of the tomato market, and that an advance in prices is probable. It is said that packers have not attempted to corner the tomatoes of the country, but circumstances have played into their hands.

Last year's pack was unusually small, estimates of the decrease from normal running 30 to 45 per cent. There were about a dozen large packers over the country who saw the situation and kept a large quantity of tomatoes, instead of selling them at prevailing prices. Other packers are now out of tomatoes and the supply is in the hands of the dozen men.

## CONGRESSMAN WATSON'S TASTES ARE DOMESTIC

Louis Ludlow, in telling how Indiana Senators and Representatives will spend their summer vacation, says: "Representative Jim Watson's service as a campaign speaker are in demand in a score of States, but he probably will be in Indiana nearly all summer. His tastes are domestic and he will strain several points to be with his family as much as possible."

## ASSESSORS HAVE FINISHED WORK

Have Until May 18 to Turn Over Books—Board of Review Meets June 4.

"Assessors working in Rush county and Rushville for the most part have finished their work and are now busy preparing their books which must be handed over to the Auditor by May 18th. A definite idea cannot yet be obtained as to whether or not the taxable property in Rush county has decreased or increased, but it is generally believed by the assessors that there will be a slight increase. Few improvements have been made during the past year, and upon improvements depend the increase in the value of taxable property.

A number of cases will be up before the Board of Review when it convenes on the first Monday in June. When the assessor and the property owner differ in setting the value of property, it is left to the Board of Review, consisting of the county assessor, chairman, the county treasurer, county auditor and Robert W. Cox and J. M. Amos. These latter two were recently appointed by Judge Sparks, of the Rush circuit court.

The books for Orange township are in. They show a gain of \$30,000 in taxable property in that township.

## BOOZE BUSINESS IS FLOURISHING

Internal Revenue Report Shows Big Gain in Ten Months.

There has been unusual industry in the liquor business in this State during the ten months ending with last month. The report of the internal revenue department for the Sixth district shows that during ten months there was an average of \$100,000 a month more collected than for the corresponding months of the preceding year. The report shows also that last month the collections amounted to \$751,000, a gain of \$113,000 over the corresponding month of last year.

The increase is almost wholly in the liquor tax receipts. The receipts from tobacco and other tax shows only a slight and gradual increase. The number of distilleries, rectifiers and breweries is said to be practically the same as last year.

## CHURCH NEWS

—About seventy-five people attended the social given by the members of Dr. Gilbert's class at the Christian church last night.

—The Woman's Missionary Society of the Presbyterian church met this afternoon with Mrs. Maria Smelser, of West Third street.

—The Epworth League of the Second M. E. church will give an entertainment at Tabernacle hall Friday evening of this week.

—Mrs. T. H. McConnell and Mrs. A. L. Peay will entertain the Band of Workers at the home of the former, Wednesday afternoon. A large attendance is desired.

—The invitation committee for the banquet to be given the men of the Christian church met last night. The program committee will meet soon. Four hundred invitations will be issued. The banquet will be held in the basement of the church on the evening of May 30th. Cole's orchestra will furnish the music. The banquet is a departure from anything given heretofore. It is difficult in the ordinary meetings for the men to become acquainted, and it is for this reason that the banquet has been planned.

## LAWN TENNIS QUITE POPULAR

Game is Being Thoroughly Enjoyed by High School Students.

"The game of tennis is growing more and more into favor these balmy spring days. The courts on the North Main street grounds are being put in shape by the students and nearly every evening girls and boys can be seen at play. While the game can be enjoyed by boys and girls alike, the boys, naturally are more aggressive at the game and almost monopolize the courts.

## IMPERSONATES OLD IRISHMAN

James Worth, the Joplin Mine Owner, Has Some Fun With Relatives.

The Greensburg papers state that James Worth, the wealthy mine owner, of Joplin, Mo., who frequently makes Rushville his headquarters, had some fun with his relatives in Clarksburg and Andersonville.

In the disguise of an old man, apparently infirm with the weight of many years that caused his head to bow as if under a heavy burden, he appeared on the streets of Greensburg Monday afternoon. His hat, glasses, sweet brier smoker and painted face, resembled the map of Ireland, and he had the brogue to fit the face. None of his friends in Greensburg recognized him. He visited a number of the stores where he was well known, but his disguise was so perfect that he was not recognized.

## FORMER RUSH COUNTY LADY PASSES AWAY

Mrs. Francis C. Jamison, of Indianapolis Succumbs to Lingering Sickness.

Mrs. Frances C. Jamison, who had lived in the city a number of years, died after a lingering illness at her home, 1048 Tecumseh street, Indianapolis Monday, at the age of 71 years.

She was born in Rush county in 1835, and at the age of 17 was married to Jephthah Jamison. Of the six children born to the couple, five of them, Mrs. Benjamin Gruell, Mrs. R. J. Pedlow, Mrs. H. S. Slack, Mrs. Henry E. Thomas and Morton L. Jamison, survive.

The funeral will be held at 2 o'clock Wednesday afternoon at the M. E. church on East Tenth street.

## THE COUNTY TREASURER

Can Nail Anything You Have in Collecting Delinquent Taxes.

The supreme court has made a ruling that may prove a powerful weapon in the hands of county treasurers in the collection of delinquent taxes. It was in the case of Cain Baker, who presented a ditch warrant for \$50 to the county treasurer at Ft. Wayne for payment. The treasurer deducted the amount of Baker's delinquent taxes and handed him \$10.38.

Baker brought mandamus proceedings to compel the county treasurer to pay the full amount of the warrant. The lower court sustained him, but the supreme court held that taxes are a lien on everything a man has, and that the treasurer had properly made deduction from Baker's warrant.

## AMNESTY IS NOW THE CRY

Even the Council of the Empire Joins in Russia's Plea.

Upper House of New Parliament Calls Upon Emperor For Act of Signal Grace.

St. Petersburg, May 15.—Former Premier Witte has taken a prominent part in the conferences of members of the council of the empire, successfully insisting that the adoption of a reply to the speech from the throne should be postponed until a regular meeting of the council at which representatives of the press shall be present, in order that the country may be informed as to the arguments advanced on either side. Nevertheless the projected reply to the speech from the throne will probably be adopted, as already has been drafted. Though delicately expressed, the reply virtually contains a demand for the amnesty of political prisoners who are not guilty of murder or robbery. In other respects the reply seems to be especially designed to disarm the suspicion that it is to be the role of the upper chamber to block legislation proposed by the lower house. After expressing the deepest loyalty to the emperor, the reply of the council of the empire contains these three principal points:

First—An unequivocal endorsement of a liberal regime.

Second—Declaration of the intention to work in harmony with the lower house for large reforms.

Third—Amnesty, the suggestion being so worded as not to wound the sensibility of the emperor, calling attention to the fact that all remarkable occasions in Russian history have been marked by an act of grace and urging the strong claim to clemency of those who, striving for liberty, transgressed lawful limits without being guilty of crime.

Pardon for Political Prisoners. St. Petersburg, May 15.—It is reported that the cabinet has practically decided upon an amnesty measure which, though falling far short of the universality demanded by the lower house, conforms to the idea of the council of the empire of granting pardon to all political offenders except such as have been convicted of agrarian murders or attempts to murder.

## CONSUMPTIVES TO CARRY PAPER CUPS

The great number of deaths from consumption in this State is not due to the fact that Indiana is an unhealthy State, says Dr. T. Henry Davis, Secretary of the Richmond City Health Board. He states that the average the world over is one death in every seven resulting from the white plague. This is the general average maintained in Richmond.

"Deaths from consumption could be considerably reduced" said Dr. Davis, "if people were more careful about spitting on the streets, sidewalks and in public places. In many cities ordinances have been passed prohibiting spitting on the sidewalks and in public places, but naturally it is very hard to enforce this ordinance. People fail to realize the importance of observing it."

Dr. Davis stated that this evil could be greatly remedied if every person, known to be affected with consumption, be compelled to carry a cup made of especially prepared paper, in which to expectorate. These cups could be burned up and the germs killed.

## THE ASSOCIATION IS STEADILY GROWING

The new improvement association is growing steadily and it will be but two or three days until the promoters will be ready to incorporate. The soliciting committee was out again yesterday afternoon and five new stockholders were secured.

### MAY CHANGE DATE

National Republican Editors May  
Meet With National Association.  
Indianapolis, Ind., May 15.—The  
annual convention of the National Re-  
publican Editorial association may be  
held here June 11, as its president,  
William S. Cappeller of Mansfield, O.,  
has written to Harry S. New, vice  
president of the Republican national  
committee, asking him if he thought  
it advisable. Cappeller also asked  
whether Vice President Fairbanks  
will be here to address the conven-  
tion. The Republican Editorial as-  
sociation was to have met at Wash-  
ington, but it is understood that many  
members want to come here June 12  
for the meeting of the National Ed-  
itorial association, so they have start-  
ed a movement to change the date and  
place for their own convention. Vice  
President Fairbanks will deliver an  
address before the National Editorial  
association and will probably be in-  
vited as the principal speaker for the  
Republican convention.

As yet there is no indication that  
the Indiana bituminous coal opera-  
tors will attempt to run their mines  
non-union, but as a rule they are very  
reticent as to what their plans will  
be if there is not a settlement within  
the near future. It is believed that  
the Indiana operators expect to await  
the result of negotiations between the  
Illinois operators and miners next  
week before they take any steps.  
President O'Connor of the Indiana  
miners said today that he has not been  
approached on the matter of calling  
a conference between the miners and  
operators in this state. He declared  
that there are a number of Indiana  
operators ready to sign the scale now  
and pay the advance, but they are  
afraid of the railroad influences.

An attempt is being made to form a  
company to start a Democratic organ

here, but it is said that it is not meet-  
ing with much encouragement. It is  
understood that the plan suggested is  
to raise \$200,000 by popular subscrip-  
tion among Democrats. The Demo-  
crats who are interested in the at-  
tempt are very doubtful whether that  
amount could be raised by popular  
subscription. Two years ago an ef-  
fort was made to raise money for the  
Indianapolis Sentinel, which had been  
the party organ for half a century, but  
it was not successful. Another meet-  
ing of Democrats will be held here  
within a few days to discuss the pro-  
ject.

State Statistician Stubbs is taking  
a census of the religious denomina-  
tions of the state. By the census of  
1900 the Methodist Episcopal church  
in Indiana led all other denominations  
with 174,862 communicants. The Ro-  
man Catholic church was next with  
145,269 members. These were the  
only branches whose communicants  
were numbered in six figures. The  
Christian, Lutheran, Baptist, Presby-  
terian, United Brethren, German  
Methodist, Friends and Amish  
churches followed in this order, the  
communicants ranging between 92,  
788 and 13,713.

Alonzo Greene Smith, former at-  
torney general, who recently challenged  
ex-Mayor Holtzman to show where  
money was used in getting votes to  
re-elect W. H. O'Brien of Lawrence-  
burg chairman of the Democratic  
state committee, has demanded of him  
again that he name the members of  
the organization who were corrupted.  
Smith declares that if Holtzman  
knows any member who received  
money for his vote, it is his duty to  
name him to the public.

### Held on Dog Evidence.

Parkersburg, W. Va., May 15.—  
Bloodhounds from Mountsville were  
taken to Elizabeth, in Wirt county  
where the home of Thomas Hughes  
was burned, and Hughes was severely  
burned in escaping. The first dog re-  
leased struck a trail in a few minutes  
and followed it to the home of Lewis  
Archer, one of the best known young  
men in the county. A second and  
third dog did the same. Archer was  
arrested and lodged in jail.

### Look Them for Candy.

Fort Wayne, Ind., May 15.—Theo-  
dore Scott, aged thirty months, son  
of R. J. Scott, and Royal Cornwall  
aged four years, are dead as a result  
of eating strychnine pills at the Scott  
home, where F. J. Cornwall and his  
wife were visiting. The babies were  
at play about the house when they  
came across a box of low strength  
strychnine pills, and, thinking them  
to be candy, devoured them all.

### Fired on Riotous Strikers.

Saravovo, Russia, May 15.—A strike  
has broken out at the Zenica coal and  
iron works. Strikers attacked the  
gendarmes with stones and revolvers  
and the gendarmes returned the fire,  
killing three and wounding five strik-  
ers. Troops have been sent to quell  
the disturbance.

### A Dream That Faded.

Boston, May 15.—The trial of Ferdi-  
nand E. Borgess, formerly of Logans-  
port, Ind., ex-convict and confidence  
man, who was one of the main spir-  
its of the Uvero Plantation company, a  
fairly dream from which hundreds of  
persons awoke to ruin, has begun here.

### A Place for Komura.

Tokio, May 15.—The newspapers  
here assert that Viscount Hayashi,  
ambassador to Great Britain, has ac-  
cepted the foreign ministry and Baron  
Komura the post of ambassador at  
London.

### A TERRIBLE ARRAIGNMENT

Leading Democrat Says His Party  
Leaders Hold Brewery and Gam-  
blers' Interests Above Good  
of Party.

Hon. John W. Holtzman, former  
Democratic mayor of Indianapolis, con-  
tinues his fight against the bosses in  
his party and in behalf of the rank and  
file. In another open letter published  
in the state papers over his signature  
he continues to "protest against the  
methods that have obtained in the  
management of the Democratic party  
in Indiana in the last few years." He  
also renews his declaration that "we  
should rid the party of those who hold  
the interests of the breweries and the  
Monte Carlos of Indiana above the in-

terests of the party." The Democratic  
party in this state is truly in a bad  
odor when the only man who has been  
elected by it to any position of con-  
sequence in the past ten years should  
say of those in control that they hold  
the interests of the breweries and the  
Monte Carlos above the interests of  
the party they pretend to serve, yet  
that is just what ex-Mayor Holtzman  
and other leading Democrats say, and  
we have yet to see a denial of the  
charge by either Thomas Taggart or  
William O'Brien.

One would hardly know there were  
so many trusts were it not for the fact  
that the courts keep calling them up  
on the green carpet one by one to pun-  
ish them for their defiance of law.  
And, by the way, every law on our  
statute books regulating and control-  
ling trusts was put there by Republi-  
cans.

Hon. John W. Holtzman, ex-mayor  
of Indianapolis, and the only Democrat  
elected to any office of prominence in  
the state for many years, now says of  
his party: "It is generally believed  
that certain forces in the party are  
more interested in the protection of  
the breweries and the Monte Carlos  
of Indiana than the welfare of the  
party."

Boss Taggart may beat the Demo-  
cratic tom-tom at the head of the pro-  
cession, but those who are Democrats  
from principle will be as slow to line  
up as they were two years ago. We  
have confidence in the rank and file  
of Democracy to know that thousands  
of these citizens will balk when it  
comes to an attempt to control their  
votes in the brewery and gambling in-  
terests of the bosses.

President Roosevelt is demonstrat-  
ing that he is thoroughly in earnest in  
moving against the illegality long  
practiced by the Standard Oil corpora-  
tion. The American people are gen-  
erous to a fault in permitting their  
laws to be ignored, but every once in  
a while something happens, and then  
off to prison marches another "prom-  
inent citizen" or two who thought laws  
were only to be enforced on beggars  
and tramps.

George K. Trask, the newspaper  
writer, who is authority on railroad  
subjects says the 2-cent railroad law  
in Ohio is working a surprise on the  
railroads in the way of increased re-  
ceipts over sales at a 3-cent rate. He  
says that in towns of a few thousand  
inhabitants increases in sales of tick-  
ets from \$50 to \$400 are reported, and  
that passenger agents are astonished  
and pleased with the conditions. At  
Indianapolis, with every line, an in-  
crease in receipts from sales of tick-  
ets is reported ranging from \$1,000 to  
\$10,000 increase over last year, and,  
as far as the local offices are concern-  
ed, they seem to have not been affect-  
ed in their revenue through this law  
which applies to the state of Ohio.  
Mr. Trask does not believe a 2-cent  
law in Indiana will seriously cut down  
receipts, and certain it is such a law  
as is proposed in the Indiana Republi-  
can state platform will be welcomed  
by the people.

### Cheap Binder Twine.

The season of the year is almost at  
hand when the farmers will be using  
binder twine in the harvest of the oats  
and wheat crop. In this connection  
it will be interesting in more ways  
than one to know that in the Michigan  
City prison, under a newly inaugu-  
rated plan, is manufactured a twine that  
is not only superior to but is also  
cheaper than the twine manufactured  
by the trust. The prison twine sells  
from 8 to 9 cents per pound. In large  
quantities the price is 8 cents, but in  
50-pound lots the price is 9 cents per  
pound. Farmers are ordering direct  
from the prison, as they can purchase  
it at the same price the dealer can.  
Persons intending to purchase prison  
twine should get their orders in at  
once and thus insure delivery in due  
time.

If the Democrats who are against  
reorganization win, and the present  
Democratic state committee continues  
in control in Indiana, Bryan, the peer-  
less leader, will feel that the Hoosier  
Democrats have truly deserted him for  
the Eastern crowd.

## THIS SETTLES IT

The President Issues a  
Formal Statement Re-  
garding Dissension.

### CLEAR VIEW OF THINGS

In No Case Was There the Slightest  
Opportunity For Misconception  
of President's Attitude.

He Was Always Careful to State  
That He Was Not Trying to  
Dictate Any Program.

Washington, May 15.—The sensa-  
tional rate bill incident in the senate  
Saturday during which Mr. Tillman,  
on the authority of former Senator  
Chandler, made statements regarding  
the president's course in connection  
with pending railroad rate legislation,  
some of which statements were de-  
nied by Mr. Lodge on behalf of the  
president, had its sequel last evening,  
when an official statement was issued  
by the White House, giving an ac-  
count of the subject on the part of  
the president and Attorney General  
Moody. The statement comprised two  
letters, one from the president to Sen-  
ator Allison and the other from At-  
torney General Moody to the president.  
The president says: "In no case,  
either in the case of Mr. Chandler or  
anyone else, was there the slightest  
opportunity for any honest miscon-  
ception of my attitude or any belief  
that I pledged myself specifically to  
one and only one amendment or set  
of amendments, or that I would not  
be satisfied with any amendment  
which preserved the essential features  
of the Hepburn bill as it came from  
the house." The president says that  
as to many of the amendments, in-  
cluding the so-called Long, Overman,  
Bacon and Spooner amendments, he  
had said he should be entirely satis-  
fied to have them in the bill, and sug-  
gested modifications as to other  
amendments, but that "as to none  
(of the amendments) did I ever say (either  
to Mr. Chandler or to anyone else  
that I should insist upon having them  
in the bill as a condition of my ap-  
proval," and that on the contrary he  
(the president) was careful to state  
that he was not trying to dictate any  
particular program of action. The  
president says the statements made  
to Senator Chandler were the same  
in substance as those made to Mr.  
Allison and other senators of both  
parties. He says he was asked to see  
Chandler as the representative of Mr.  
Tillman in charge of the bill, and that  
conferences Attorney General Moody  
had with Senators Tillman and Bailey  
were such as had been had with many  
other senators to determine the phre-  
sology and discuss the effect of  
amendments proposed by them. The  
president states that he became con-  
vinced that it was impossible for sen-  
ators "with advantage" to use him as  
an intermediary and suggested to all  
to whom he spoke that they communi-  
cate with Senator Allison, whose pur-  
poses and the president's were "iden-  
tical." The president says that his  
own opinion that the Allison amend-  
ment in no way changed the court re-  
view as provided in the original Hep-  
burn bill is also the opinion of At-  
torney General Moody and Secretaries  
Root and Taft. The attorney gen-  
eral's letter gives an account, at the  
president's request, of the conferences  
which Mr. Moody had at the presi-  
dent's direction with Senators Till-  
man and Bailey regarding the court  
review feature. He says he advised  
the president that he should not at  
any stage become finally committed  
beyond recall to any form of language  
in any part of the bill, and the presi-  
dent affirmed the wisdom of that  
course. He reviews the discussion of  
interlocutory injunctions, and con-  
cludes that there was nothing in the  
"conversations" between the senators  
and himself which bound the presi-  
dent to any particular amendment.

Washington, May 15.—The session  
of the senate yesterday passed with-  
out an exciting incident and without  
the adoption of a single amendment  
to the railroad rate bill, notwithstand-  
ing that measure was under considera-  
tion practically all the time from the  
hour of convening, 11 o'clock, until ad-  
journment at 5:15 p. m. The most  
characteristic feature of the day was  
the rejection of amendments. This  
was accomplished either by direct  
vote or by the process of laying on the  
table, and one followed another in  
rapid succession.

### Record Breaking Session.

Washington, May 15.—The files of  
the index clerks at the state depart-  
ment show that the first session of the  
Fifty-ninth congress has broken all  
records in the matter of completed  
legislation up to this moment. Al-  
ready more than 3,000 laws have been  
enacted, which is between 700 and  
800 more than in any preceding ses-  
sion up to the beginning of the month  
of May. The greater part of this mass  
of law was made up of bills of a pri-  
vate nature and only about 250 of  
the total enactments were general  
laws.

### A LITTLE SIDE LIGHT

Is Let in on the Pass Question in the  
House.

Washington, May 15.—During the  
discussion of legislation affecting the  
interests of the District of Columbia  
in the house, an exceedingly interest-  
ing colloquy occurred between Messrs.  
Gaines (Tenn.) and Babcock (Wis.).

Mr. Gaines inquired: "Why do we  
sit here like a lot of cowards and raise  
everybody else's salary and not raise  
our own?"

Mr. Sims (Tenn.): "Because we  
want to come back here." (Laughter.)  
Mr. Gaines continued: "We are a lot  
of moral cowards not to raise our own  
salaries. A whole lot of us get a  
whole lot more than we ought to have  
and others do not get enough. Of  
course a lot of people are opposed to  
it, just as a lot of people were op-  
posed to the passage of the law  
against members riding on railroad  
passes, and on this question of  
passes—"

"Will the gentleman kindly advise  
the house where these passes can be  
obtained?" interjected Mr. Babcock.

Mr. Gaines: "I do not know. I  
never asked for any, but I do not  
know of anybody who knows more  
about free passes than the gentleman  
from Wisconsin."

Mr. Babcock: "I have no pass, and  
pay for every mile I ride. If there is  
a place where we can get them I  
would be glad to have my colleagues  
know."

Mr. Gaines disclaimed any knowl-  
edge of the whereabouts of free passes  
and then proceeded to discuss the viola-  
tion of the anti-pass law in Tennes-  
see.

"A great railroad man told me he  
had issued a free pass to every federal  
judge in my district," said Mr. Gaines.  
"And all had kept them except one,  
and he used to be a member of con-  
gress. He had given every member  
of the legislature a free pass and  
they all kept them, as had the gov-  
ernor. I told him it was contrary to  
law and asked him why he did it, and  
he said his company felt it had to."

Mr. Babcock replied that he was  
very sorry the gentleman from Ten-  
nessee had failed to tell the house  
where transportation could be pro-  
cured.

Mr. Gaines: "It is in your pocket,  
like it is mine. That is all I ever  
used, my own money."

Mr. Babcock: "There is no trans-  
portation in my pocket. I always pay  
my own way in the trains and in the  
streets."

Mr. Gaines: "Have you always  
done that?"

Mr. Babcock: "Not always."

### SPECIAL LEGISLATION

Will Be Proposed to Help San Fran-  
cisco Out of the Hole.

San Francisco, May 15.—At a meet-  
ing of the committee on special ses-  
sion of the legislature it was unani-  
mously decided that the present fifty-  
year lease law should be so amended  
that 99-year leases will hereafter be  
permitted in the state. This is looked  
upon by the real estate men as a  
most important step, as they maintain  
that under the new conditions build-  
ing will progress rapidly. The com-  
mittee also decided to recommend an  
increase for the inheritance tax and  
of corporation licenses. The state  
will be asked to authorize the issuance  
of bonds in the sum of \$600,000 to be  
a tax on the tonnage of San Francisco  
for a reconstruction of those portions  
of the wharves and the sea wall de-  
stroyed in the recent calamity.

### THE MINING SITUATION

Both Sides to the Disputes Said to Be  
Weakening.

Terre Haute, Ind., May 15.—Indiana  
coal operators think that the request  
by Illinois miners for a conference  
with the operators of the state next  
Thursday means that the miners wish  
to reach an agreement on a compro-  
mise basis. At the same time the In-  
diana operators deny that the inter-  
state alliance between operators is a  
thing of the past, but it is not denied  
that Illinois is at liberty to sign a con-  
tract on its own account. As to the  
resolution adopted at Chicago to op-  
erate the mines "without an agree-  
ment with the United Mine Workers,"  
no Indiana operator is willing to say  
that an attempt will be made in this  
state to operate the mines on the open  
shop principle, although they say it  
may be done in parts of Illinois and  
Ohio. President O'Connor of the min-  
ers says he knows of no plan for a  
joint conference in this state.

Each side asserts that there is pos-  
itive evidence of weakening by the  
other. The operators say the miners  
of Indiana had no thought of striking  
for an advance of wages when they  
selected delegates to the Indianapolis  
conference and that they agreed to the  
strike, or suspension, only as part  
of the policy as declared a year be-  
fore, to bring all coal fields into a  
simultaneous wage agreement and es-  
pecially to win the anthracite strike.  
The anthracite situation having been  
cleared, the operators say the miners  
would be content with the scale of  
wages they were getting and wish to  
return to work, but dare not bolt their  
organization. On the other hand the  
miners say they know that a number  
of operators would sign the 1903 scale  
but for fear of the railroad companies  
interested which own mines and which  
could practically put an independent  
operator out of business by handicap-  
ping his traffic.

### Harry Craig Guilty.

Crawfordsville, Ind., May 15.—The  
jury in the case of Harry Craig, in-  
dicted for the murder of James Ford  
in January last, returned a verdict,  
finding the defendant guilty of man-  
slaughter. Craig is thirty-six years  
old and a divorced man. He boarded  
at the home of his victim, and jeal-  
ousy on the part of Ford provoked a  
conflict in which Craig struck his vic-  
tim with a club. Craig goes to prison  
under the indeterminate sentence act.

### A Double Tragedy.

Lincoln, Neb., May 15.—Arthur  
Moose, a night watchman at Crawford,  
Neb., was killed by a colored soldier  
from Fort Robinson. James Moose,  
the watchman's brother, killed the sol-  
dier.

### ZULUS ON RAMPAGE

Natal Has Become the Scene of Some  
Heavy Fighting.

Eshote, Natal, May 15.—It is re-  
ported that Bambata, the insurgent Zulu  
chief, has crossed into Natal. Heavy  
gun firing was heard May 13 from  
Nkandhla, which recommenced yester-  
day afternoon.

Greytown—Serious fighting is pro-  
gressing in Zululand. Heavy gun fire  
was heard yesterday at Krantzkop.

Durban—Several native tribes on  
the Natal side of the Tugela river are  
reported to be ready to rise.

### Whole Family Slain.

Pensacola, Fla., May 15.—In Santa  
Rosa county, ten miles north of Mil-  
ton, an itinerant preacher named Ack-  
erman, his wife and seven children,  
the eldest about fourteen years old,  
were killed and their bodies cremated  
in their home, which was fired by the  
assassins. Ackerman was considered  
as a peaceful and quiet citizen. It is  
not known that he had any enemies  
who could have a motive for the  
crime.

Cough Remedy

**'NO CURE, NO PAY'**  
How F. B. Johnson & Co. Sell Hyomei.  
the Guaranteed Cure For  
Catarrh.

F. B. Johnson & Co. have an unusual offer to make to our readers, one that will be of the greatest value to many. For some years F. B. Johnson & Co. have been watching the results from the use of Hyomei, a treatment for catarrh that cures by breathing medicated air, absolutely without any stomach dosing. The results have been so universally successful that they feel justified in making a public offer to treat the worst case of catarrh in Rushville with the understanding that if Hyomei does not cure, the treatment will cost absolutely nothing.

The regular Hyomei outfit costs only one dollar, and consists of a neat pocket inhaler that can be carried in the purse or vest-pocket, a medicine dropper, and a bottle of Hyomei. If this is not enough for a cure, extra bottles of Hyomei can be obtained for fifty cents.

F. B. Johnson & Co. positively guarantee a cure, if Hyomei is used in accordance with directions, or they will refund the money.

## DEATH OF CARL SCHURZ

Well Known Publicist Passes Away  
After a Brief Illness.

New York, May 15.—Carl Schurz, publicist and former cabinet member, is dead at his home in this city. Mr. Schurz had been ill a week, and death was due to a complication of diseases following an attack of stomach trouble, which became acute on Thursday last.

CARL SCHURZ.

At the bedside were a son, Carl L., and two daughters, Marianne and Agatha; Edward L. Pretorius, Mr. Schurz's business partner, and Drs. Jacob and Strauss. Mr. Schurz was born at Lihlar, near Cologne, in 1829. The funeral services will be held at the family residence Thursday afternoon and will be attended only by the members of the family and a few close personal friends. It is understood this plan is in accordance with a wish expressed by Mr. Schurz. Immediately following the services at the home the body will be conveyed to Tarrytown, where interment will take place in Sleepy Hollow cemetery.

### A High Appreciation.

Princeton, N. J., May 15.—Former President Grover Cleveland paid the following tribute to the late Carl Schurz: "I look upon the death of Mr. Schurz as a national affliction. Though he had reached length of years and though his activity had waned, he was still a power and strong influence in the life and sentiment of his countrymen. To those who prized high, disinterested patriotism, he continued to be an inspiring leader; to those who loved unflinching moral courage he was a constant teacher, and to those who aspired to the highest ideals in civic life he was an unfailing guide. His example and lofty career are left to us to stimulate the young to virtuous emulation and to encourage all in right living. Such men can ill be spared, and what they leave to us should be carefully kept as a precious legacy."

### THE SAME OLD STORY

Balkan Feuds Are Being Revived With Annual Regularity.

Vienna, May 15.—A revolting story of Macedonian barbarity is related. In a recent conflict between Turkish troops and a band of Greeks in the vilayet of Monastir fourteen Greeks were killed. After the fight the Turkish commander refused to allow the Greeks to bury their dead, and when the Turks had withdrawn a Bulgarian band appeared with a number of dogs, which devoured the bodies. The Greeks in revenge ambushed the Bulgarians as they retired and captured sixty of them whom they massacred, including some women and children, after first subjecting them to cruel tortures.

### They Impress Their Demands.

London, May 15.—Thousands of unemployed persons of both sexes marched to Hyde Park, where James Keir Hardie and George Nicoll Barnes, labor party members of parliament, presided at meetings. The object of the demonstration was to impress on the authorities the fact that there are thousands of genuine unemployed people in the metropolis. Resolutions calling on the authorities to recognize the right of all to work, were adopted.

## THE STATE PRESS

Like Taggart's Predictions.  
(Paoli Republican.)

A Democratic victory in 1908 is predicted by Judge Parker. The year 1908 is a long way off, but certainly no further off than Judge Parker in his guessing.

Business Administrations.  
(Washington Herald.)

Republican administrations are business administrations always. All the state debt has been paid except a few bonds not due until 1910.

Easy for Teddy to Decide.  
(Laporte Herald.)

In a case of appointing postmasters at Fairmount, Grant county, this state, where the contest lay between a bachelor and the father of nine children, the president unhesitatingly turned down ye bachelor.

Indiana Labor Laws Deserve Credit.  
(Fort Wayne News.)

In Indiana last year the number of laborers increased 11 per cent, although the number of laborers under sixteen years of age decreased 4 per cent. Indiana is headed in the right direction and has been ever since the Republican legislatures have strengthened the laws governing the employment of child labor.

For San Francisco Sufferers.  
(Winamac Republican.)

The "soulless" corporations are doing much for the relief of suffering San Francisco. The trainloads of provisions for the suffering thousands were given right of way over all usual traffic, and the railroad made no charge for this service. The value of transportation services given absolutely free by the railroads amounts to at least \$3,450,000.

A Party That Does Things.  
(Frankfort Evening News.)

The Democrats will never get into power by finding fault with what the Republicans do, for the very good reason that the people at large trust the Republicans in the main and are too sensible to imagine that any party can be infallible. They know that the principles of Republicanism are right and allow for occasional mistakes that are made in putting them into effect.

Wanted—A Housecleaning.  
(Seymour Republican.)

The Charleston Citizen, though an uncompromising Democratic paper, does not love Tom Taggart, the Democratic leader. In its last issue it asks the question, "How can the Democratic party of Indiana appeal to the moral, law-abiding people of Indiana, who are in a large majority, when the leader of the party is known far and wide as the owner of a resort where gambling is carried on continually? True, Mr. Taggart does not operate the games; but it is known that he is at the head of a great corporation which rents a magnificent building knowing that it is to be used for gambling." After such a tender shot as this Taggart should reform for the sake of the Democratic party.

People Can Always Be Trusted.  
(Warren Republican.)

In 1895, eleven years ago, when the Republicans took charge of the affairs of the state, the debt of Indiana was \$7,520,615.12. In this time the principal has been reduced \$6,715,615.12. It is now \$805,000. Since Governor Hanly's administration began there has been paid on the debt \$613,000. There remains to be paid a series of bonds, which do not mature until 1910. During this time also there has been paid the maturing interest, our state penal, benevolent and educational institutions have been maintained, and the good credit of the state kept at par. But this could not have been done had it not been for the general Republican prosperity that has continued all these years. The people have been wise in keeping the party in power.

Officials Set Precedent.  
(South Bend Tribune.)

One of the most noteworthy things in recent Indiana affairs and one which was accomplished without any ado or flare of trumpets, was the turning over of interest on public funds by Warren Bigler, auditor of state, and Fred A. Sims, secretary of state. In doing this they set the most important precedent ever consummated by state officials.

Both of the men in question on the day of their last settlement, May 1, paid into the state treasury the interest on funds in their control. The amounts were small, but that does not affect the principle that prompted the action. It has long been contended that money secured from the depositing of funds should go to the state, but the two instances in question are the only times this has been done. Money received for the use of public money belongs to the public, and it is gratifying to note that the public is receiving its share. The action of Mr. Bigler and Mr. Sims marks the passing of an old system, one which made rich men at the expense of the people.

Both of these men are appointees of Governor Hanly and their action cannot be other than exceedingly pleasing to the chief executive, because it means a new order of things, by which the state will benefit. Those concerned did not intend to let the matter be generally known, for fear of embarrassing other officials, but the facts leaked out and it is well that they did, because an opportunity to give credit to whom credit is due is thus afforded.

BUSTER BROWN.**

Style, Quality, Price. These are the three graces that should attach to garments. Look at the best dressed men, and ask them where they got their clothes. We will take chances on their saying at Mulno & Guffin's. Ask a man who you have seen wearing (a long time) that always looked well, a suit, where he got it. We will take chances on his saying at Mulno & Guffin's, who carry clothes especially made. Take a hard up friend aside and ask him where he got the clothes you know he had to buy cheap. We'll take chances on his telling you of

**YOU CAN'T  
BUY SHOES HERE**

Without Becoming a Friend of the Store

Scores of come again-and-again customers testify to this. The only reason we can give for this shoe-store-loyalty is that our shoes are either more comfortable, or wear longer, or look dressier, (or all three), than do the other fellow's. We are willing to admit THIS MUCH: We are after the business of every person who wants BIG VALUE FOR HIS MONEY, and to get this business we are putting just as much style and comfort and wear into every pair of shoes as it is possible to do at the price.
